

EQUIPPED WITH 2x VARIABLE-FOCAL LENS, THIS COST-EFFECTIVE COLOR DOME CAMERA PERFORMS SUPERBLY ACROSS A WIDE RANGE OF APPLICATIONS.

The new WV-CF224 Color Dome Camera from Panasonic is equipped with a 380,000 pixel, 1/4-type CCD and can be used with both AC and DC power sources. In addition to 480-line horizontal resolution, it can operate effectively in lighting as low as 2 lux (0.2 fc) with an aperture setting of F1.4. A full range of correction features including Backlight Compensation (BLC), Aperture Correction, and Auto Tracing White Balance (ATW) ensure crisp color images in dark or backlit environments. The 2.8mm to 6.0mm variable-focal lens is standard equipment, and provides easy installation and camera angle adjustment. When used with a 24-volt AC power source, it simultaneously supports Internal, Line-Lock, and VD2 synchronization, making it simple to configure a reliable, multi-channel camera system.

Great specs, great cost, great simple installation and great flexibility for system configuration: The WV-CF224 has everything it takes to succeed in all applications.
